

AOG SEMINAR INVITATION

A Technical Introduction to Helical Rotor Pumps & applications in Oil & Gas with John Coles

After the popularity and success of the Technical Seminar we held at last year's AOG Expo, Dynapumps will be again offering our clients this opportunity in 2012. In conjunction with Netzsch, we will be hosting a complimentary technical training seminar within the AOG Exhibition at Perth Convention Centre, on Thursday 23rd February 2012. Netzsch are the world's largest supplier of Helical Rotor Pumps (also known as Progressive Cavity Pumps) and the seminar will discuss the working principle behind these pumps and their applications in the Oil & Gas industry.

SEMINAR CONTENT

- Helical Rotor Pumps
 - Hydraulic Design
 - Universal Joint (powertransmission)
 - Mechanical Seal
 - Motor and Gearboxes
 - Materials
 - System Requirements
- Applications
- Case Studies & References

Speaker: John Coles Managing Director at Netzsch Australia

Where: Perth Convention and Exhibition Centre, Meeting Room 5

When: Thursday 23 February 2012 - Day 2 of AOG Expo
